- Collaboration Tools: Miro, Google Workspace (Docs, Slides), GitHub
- Basic Development: HTML/CSS, Python (Basic), Flutter (Familiar)

### Soft Skills

- Detail-Oriented & Precision-Focused
- Analytical & Structured Problem-Solving
- Fast Learner & Adaptable
- Receptive to Feedback & Iterative Mindset
- Cross-Functional Collaboration & Teamwork
- Clear & Concise Communication

## PROJECTS

**Imunetra | Usability Testing, UX Research, Figma (2025)** Design a field-driven mobile health application for volunteers and healthcare workers in remote areas of Indonesia. Conducted end-to-end UX process including user interviews, wireframing, low-fidelity prototyping, and task-based usability testing with real users.

**KasirTa' | UAT, Figma, Project Management (2026)** Designed the complete UI/UX interface for a free web-based POS application built as a community service initiative for small culinary business. Delivered full design system including color palette, typography, and interactive Figma prototype. Also served as Project Manager, coordinating frontend and backend development teams.
